Courtesy of South Central Mountain Regional Task Force -

Core Competencies: Hands on and didactic training. Course is designed for street medical providers and law enforcement personnel who first-respond to active shooter events. Concentration is on forcing forward urgent medical care to the victims.

Topics to include:

- History and Response - past and present - to active shooter and bombing incidents.
- Basics of hemorrhage control, airway management, ventilation, and shock.
- Role of incident command and law enforcement / EMS coordination
- Ballistics, Explosives, and the physiology of wounding
- Mitigation of scene hazards at a dynamic threat incident
- New perspectives on medical response to MCI incidents

This course is approved for 8 hours of CME credit...

Target Audience: EMR, EMT, Paramedic, Law Enforcement, Military Personnel, Physicians, Nurses, Physician Extenders and Security Personnel.

To Register: Email: ConEd@amedems.org Each class is limited to 35 students.
